Subject: Meeting Tues., Oct 24th, 6 p.m. -- materials attached

Mr. Richard Slingerland, Village Administrator
Mr. Robert Hoyt, Trustee
Ms. Lisa Montana, Arborist, Tree Commission

Dear Richard, Bobby and Lisa,

Thank you, Richard and Bobby, for agreeing to meet at a time when Lisa Montana, the Tree Commission's arborist, can be with us.

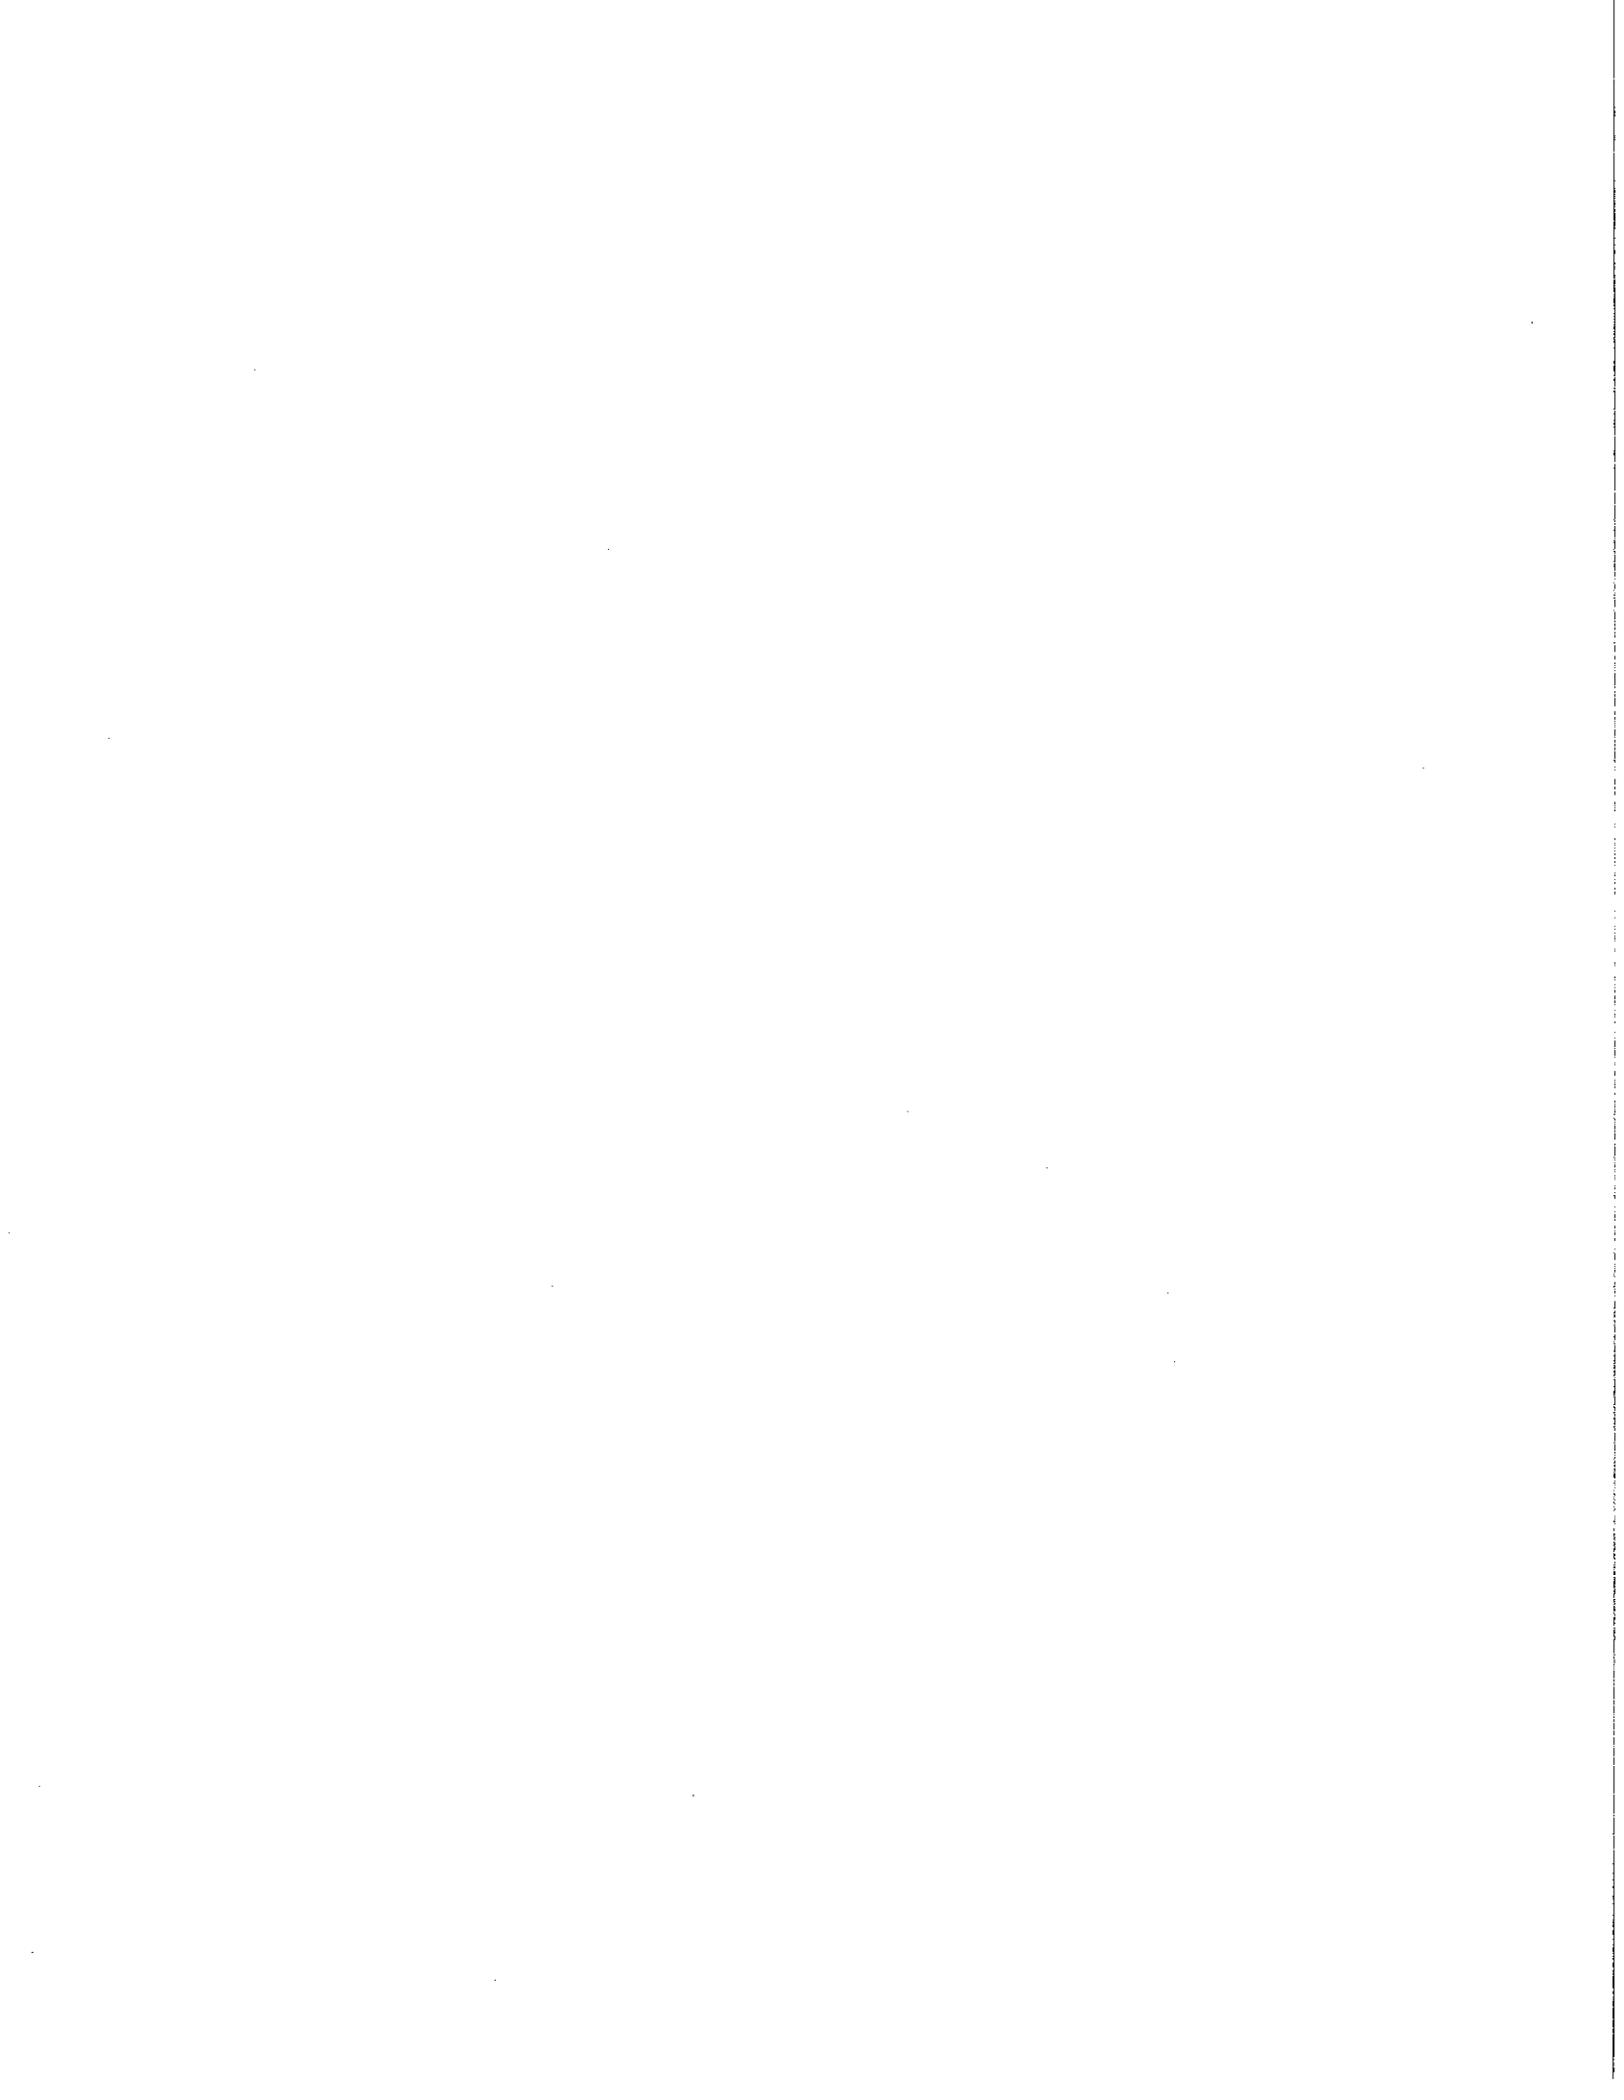

As an aid to our conversation on Tuesday, I've attached the:

- Tree Permit Application form currently in use
- Revised Tree Permit Information and Application form currently with the Board of Trustees
- Brief report to the Comprehensive Plan on the Tree Commission's purpose, goals, issues, "what matters."

I look forward to listening and talking with you on Tuesday. We appreciate the opportunity this meeting provides.

Anne

Anne T. O'Brien

The following information is provided in accordance with the provisions of Chapter 281 of the Code of the Village of Tarrytown, entitled TREES. A separate permit application is required for each tree to be removed. If approved, the tree permit will be valid for 45 days.

SECTION 1 – APPLICANT INFORMATION

OWNER'S NAME _____ TEL. NO. _____
ADDRESS _____
MAILING ADDRESS _____ CITY _____
ZIP CODE _____ EMAIL _____

TREE WORK ENTITY NAME _____
TEL. NO. _____
TREE WORK ENTITY ADDRESS _____
ZIP CODE _____
TREE WORK ENTITY LICENSE OR CERTIFICATE # (STATE OR COUNTY) _____

SECTION 2 – PROPOSED TREE WORK

TYPE OF WORK PROPOSED: Please check appropriate box
 Tree Removal Root pruning Removal of damaged/diseased portions Thinning Peek-a-boos
Attach sign, etc. Other (please specify in details section)

SECTION 3 – TREES INVOLVED

TREE SPECIES* _____ LOCATION OF TREE ON PROPERTY _____
TREE DIAMETER MEASURED 54" ABOVE GROUND (DBH) _____
(*TREES MUST BE MARKED PRIOR TO REVIEW BY THE TREE WARDEN)

PURPOSE FOR REMOVAL (CHECK ONE)
 TREE IS DEAD TREE IS DISEASED (specify) _____
 OTHER (specify) _____

Estimated Date for Start of Work ____/____/_____
Location of Disposal of Plant Material (specify) _____

In addition, please provide 2 representative photos each of the tree before, during and after the proposed tree-related activities proposed in this application. One (1) photo from street and one (1) photo parallel to the street. Applications submitted without these photos will not be processed. Do not send photos under a separate cover. The Village of Tarrytown may, at its discretion, require additional documents in support of this application.

I hereby certify that I have read and understood the conditions and rules in the P-S Supplemental Information included with this application packet. I agree to abide by the terms and conditions of this

P-A Tree Permit Application

Chapter 281 TREES

application and any permit, if granted, and the Rules and Regulations of the Village of Tarrytown Tree Ordinance Chapter 281. I understand that any false statement or information, or failure to follow the terms of any permit granted, may lead to the immediate denial or cancellation of my permit including the possible denial of tree permits to the landscaping company (tree work entity) for a period of 12 months and additional legal action by the Village of Tarrytown.

Applicant's Signature (Property owner or head of organization filling out this form) _____
Date ____/____/____

Tree Work Entity's Signature (Authorized Landscape Company doing tree work) _____ Date ____/____/____

For Village of Tarrytown Office Use Only

APPROVED _____ (PERMIT # _____) DISAPPROVED _____ DATE ____/____/____

SIGNATURE OF TREE WARDEN OR DPW COMMISSIONER _____

DATE OF COMPLETION OR REMOVAL: ____/____/____

End of Tree Permit Application

Beginning of Permit – Supplemental Information

Permitted activities:

- Planting. The planting of trees on private property by the owner of the private property.
- Minor pruning. The pruning of any tree, where the pruned portion does not exceed 25% of the canopy.

Before submitting this application, please review the permitted activities above and the following conditions below:

- **This application is not a permit. No work may be performed before a Permit is granted.**
- Arboricide. The removal of a tree without permission is a criminal misdemeanor punishable by a fine and / or imprisonment, in addition to civil damages.
- Permit timeframe. All applications must be received at least ten (10) business days prior to the proposed start of work.
- Who can apply. Permit applications can be made by property owners, general contractors, tree work contractors, utilities, businesses, and other entities.
- Documentation. If a Permit is granted, the original copy of the Tree Permit Work Order and Permit must be present at the worksite at all times. Photocopies or fax copies are not acceptable. The village will release a Permit only to a representative of the Tree Work Entity named on the Permit.

Tree Commission
October 3, 2017 7:30 – 9:30 p.m.

Heritage: In the late 1940's my grandfather drove me from NYC, where we lived, up Rte. 9 – all the way to Tarrytown. Along the way, he pointed out the trees overarching Broadway. The tree canopy throughout Tarrytown is a treasured heritage that the Tree Commission wishes to preserve and enhance. There is a direct relationship between trees and the health, safety and welfare of a community like Tarrytown.

Trees: (29 things they do...)

- Provide shade, add color, control water and air pollution, stabilize the soil and prevent erosion,
- Help protect against climate change by providing shade and storing water,
- Hold down municipal costs for drainage control, help prevent flooding,
- Provide an amenity for all residents, *e.g.*, beauty and increased property value.
- Native trees provide unique habitats for many species, supporting the web of life -- insects, birds and mammals – a role only they can fill.

The Tree Commission aims to:

- Provide protection against the indiscriminate destruction of trees and loss of canopy and habitat,
- Establish minimum standards for tree protection, both for existing trees and future tree growth,
- Endorse use of native species for plantings on Village-owned land, and plantings endorsed by the Village. Encourage their planting by residents.
- Support the greening of those areas of TT, *e.g.* the Train Station, that are now less green, less shaded than the upper hills in general.

What Matters Most/Key Issues

- **Preserving and enhancing tree canopy, for now and future:**
 - Best Practices: no topping, no volcanoes, no heavy weight on roots.
 - Think native, tall, shade.
 - Protect trees & prevent their destruction at all times, esp. *e.g.*, during construction.
 - Adequate resources to plant trees for the future.
 - Preserve views from and of the river, by pruning, NOT by topping.
- **Engaging Community, and Public Education:**
 - Clear communication with tree professionals (**new Tree Permit Application**).
 - Clear, two way communication with residents:
 - Interactive **Website** (we have suggested contents and characteristics).
 - Reach residents (how? Email?), to draw them to the Website.
 - **Motivate residents** to help by planting and caring for trees.
- **Training and Opportunity for Staff** who work with tree professionals and public:
 - Education
 - Support

Who are we?

- Landscaper and Tree Warden Deirdre Carsto, Arborist Lisa Montana, DPW General Foreman Lou Tucci, TEAC liaison Martin Hauser, PB liaison David Aukland, two representatives from public (Ron Tedesco and Anne O'Brien).

Village of Tarrytown – Tree Permit: Information & Application

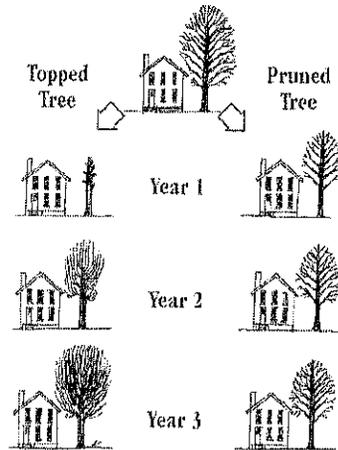

Part I: Background Information, Preparing to Apply for a Permit:

- There is no permit **until the application is approved by the Village DPW.**
- No work may be performed before a tree permit is granted.
- **An approved Tree Permit is required for all work on trees**, including removal of trees protected by the Village Code, or substantial pruning.
- Work must be carried out by a **Green Contractor** (definition below) registered with the Village DPW.
- **To fill out the form correctly, please:**
 - Answer all questions (NA if not applicable).
 - Print or write CLEARLY. The information is used.
 - Indicate work proposed specifically and accurately, *i.e.*, removal of damaged portions, root pruning, thinning, peek-a-boo pruning, new planting, removal of tree, other specified.
 - Give species name in English and Latin (if known), height of trees in feet, tree diameter (54" above ground, DBH - diameter at breast height) in inches.
 - Photographs can help explain an application, for instance for a dead tree, for a damaged limb, or to show proposed peek-a-boo pruning.

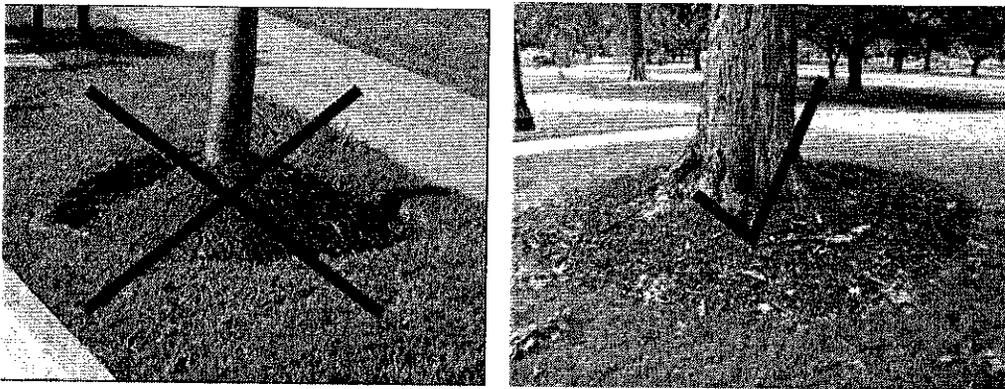

- **DEFINITIONS**
 - **Topping:** inappropriate pruning technique to reduce tree size. Cutting back a tree to a predetermined crown limit. **No tree topping is permitted in Tarrytown.**
 - **Pruning:** removal of carefully selected, limited numbers of tree branches, chosen in order to improve structure, to clean, to reduce, to restore, to thin, or *via* peek-a-boos, to enhance views. No more than 25% is removed.
 - **Peek-a-boo pruning:** branches are thinned out enough that the trunk and main branches are visible through leaves; no more than 25% is removed.
 - **Thinning:** the selective removal of trees, primarily undertaken to improve the growth rate or health of the remaining trees.
 - **Diameter at breast height (DBH)** – the diameter of a tree measured at 54 inches above the ground surface.
 - **Green Contractor** – landscape contractor who has agreed to value environmental and ecologic principles in their work.

● CARE OF TREES

- **No topping of trees is permitted in Tarrytown.** Topping kills; pruning can help.

- **Do not build soil “volcanoes”** at the base of trees. This asphyxiates roots, forces tree to build new roots, and is harmful to the tree. Leave the natural curve of the trunk visible.

- **Do not put heavy weight over roots.** This damages roots, as the entire tree receives less nourishment. The tree can die as a result.
- **Water appropriately** if necessary, especially for newly planted trees.
- **Be not too neat!** Leave leaves and downed trees to nourish the soil, and as a food source and habitat for small mammals and birds.
- **Think native!** Native trees provide uniquely effective food sources & habitat for *insects, birds, butterflies, bees, mammals, amphibians*. These in turn pollinate, plant, nurture, contribute to food supply, and enhance the cycle of life.
- **Dig Safe NY.** Dig Safe NY (Call Before You Dig: Dig Safely New York at 811 or 1-800-962-7962; <http://www.digsafelynewyork.com/>) must be called prior to any excavation.

Village of Tarrytown – Tree Permit: Information & Application

Part II: APPLICATION:

SECTION 1 – APPLICANT INFORMATION

OWNER'S NAME _____ TEL. NO. _____

ADDRESS _____

MAILING ADDRESS _____ CITY _____

ZIP CODE _____ EMAIL _____

GREEN CONTRACTOR NAME _____

TEL. NO. _____

GREEN CONTRACTOR ADDRESS _____

ZIP CODE _____

GREEN CONTRACTOR LICENSE OR CERTIFICATION # (STATE OR COUNTY) _____

SECTION 2 – PROPOSED TREE WORK

TYPE OF WORK PROPOSED: (Please check appropriate box) * See definitions on information page
 Pruning (removal of damaged/diseased portions)* Thinning* Peek-a-boos* Root pruning Tree Removal (see Section 4) Other (please specify): _____

SECTION 3 – TREE INVOLVED**

TREE SPECIES _____ LOCATION OF TREE ON PROPERTY _____

TREE DIAMETER MEASURED 54" ABOVE GROUND (DBH [inches]) _____ TREE HEIGHT (feet) _____

(**TREE MUST BE MARKED PRIOR TO REVIEW BY THE TREE WARDEN)

PURPOSE FOR REMOVAL (CHECK ONE):

TREE IS DEAD TREE IS DISEASED (specify) _____

OTHER (specify) _____

Location of Disposal of Plant Material (specify) _____

The Village of Tarrytown is not liable for selection of the final destination of wood material. Please see NYS regulatory information at the following website: < <http://www.dontmovefirewood.org/the-problem/state-state-information/new-york.html> >

SECTION 4 – TREE PLANTING

Tarrytown encourages enhancement of its green canopy. Tall shade trees, especially natives, are needed. How will you help with new plantings? What tree(s) do you expect to plant?

SECTION 5 – AGREEMENT

It would be helpful if a representative photograph of the tree be provided prior the start of any tree-related activities proposed in this application. The Village of Tarrytown may, at its discretion, require additional documentation in support of this application.

I certify that I have read and understood the information on pages 1 and 2 included with this application packet.

I agree to abide by the terms and conditions of this application and any permit, if granted, and the Rules and Regulations of the Village of Tarrytown Tree Ordinance Chapter 281.

Permit Color Key:

Green = Resident Commuter

Red = Non-Resident Commuter

Yellow = Resident Recreation

Blue = Resident Single-Day Commuter

White = Limited/Special Recreation Permit (and any other special permit)

*PD Suggestions;

1. Need color code for semi-annual permits. They cannot be a different shade of the same color as annual permits due to fading from the sun.
2. Permit Colors should be as follows;
 - a. Annual Resident- Yellow
 - b. Annual Non-Resident- Red
 - c. Semi Annual Resident- Green
 - d. Semi Annual Non-Resident- Pink
 - e. Recreation Permits- Silver
 - f. Resident Single Day- White (issued to resident on white paper receipt)
 - g. Resident On Street Permits (2 types-Blue / Orange)
 - h. Business Permits- Brown
3. All Permit Colors Should be permanently assigned to avoid confusion.
4. Permits should have a small contrasting color band at bottom to indicate expiration year. This will assist with enforcement.

LOT A PARKING REGULATIONS

Parking Allowed As Follows

- **Monday -Friday 6AM -2PM**

- * Yellow and Green Permits ONLY

- **Monday -Friday 2PM -9PM**

- * Yellow, Green, Red, Pink and Brown Permits Only

Subject: FW: Tarrytown, NY Car Quote
Attachments: ITSQ19088.pdf

Rich I would like the attached quote to be considered for a Capital expense. After consulting with A-1 the in car computers have reached there shelf life and are starting to cost us in repairs. The attached proposal is under NYS contract and covers a 5 year warranty, which includes parts and labor. This system is currently in place at the Ossining Police Department where I had Lt Daly and PO Ojito visit to ensure it would meet our needs. The system also comes recommended from A-1. Having never done a capital request not sure how you wanted it presented. Also, there will be an additional line item of \$2,800.00 which will cover the expenses from A-1 to transition the units and conduct any data migration. I feel a realistic number is \$56,000.00 to complete the project.

George / Chief Barbelet,

Attached is the quote for the 8 systems complete with all the hard ware, mounting and installation services. We come onsite to you to provide the installations so there is no need to shuffle cars anywhere. We truly appreciate the opportunity to work together and look forward to this project.

Best regards,
Bob

Memo ESTIMATE TO REPLACE DAMAGED TRANSMISSION

Customer Service Issue # 1

- Com: ESTIMATE TO REPLACE DAMAGED LEAKING ALLISON TRANSMISSION.
- Cause: TRANSMISSION IS LEAKING DUE TO BELLHOUSING BOLTS WORKED LOOSE AND TRANSMISSION HAS BEEN MOVING AROUND WHERE IT IS MATED TO ENGINE BELL HOUSING. THE CONVERTER BUSHINGS IN FRONT INPUT OF TRANSMISSION ARE SEVERLY WORN CAUSING LEAK.
- Fix: ESTIMATE TO REMOVE AND REPLACE TRANSMISSION WITH FACTORY ALLISON REBUILT EXCHANGE TRANSMISSION AND FLEX PLATE ASSEMBLY. DUE TO THE AGE OF THIS VEHICLE AND THE POSSIBLE DAMAGE THAT CAN NOT BE DETERMINED UNTIL THE TRANSMISSION IS REMOVED THIS IS AN ESTIMATE ONLY. COOLER LINES ALL LOOK ORIGINAL AND ARE VERY HARD. ALL COOLER LINES NEED TO BE REPLACED.

PLEASE NOTE TRANSMISSION CORE CHARGE IS \$4400.00 IF CORE IS REJECTED DUE TO DAMAGE TO FRONT CONVERTER HOUSING THERE IS THE POSSIBILITY OF NO CORE CREDIT. TRANSMISSION WILL HAVE TO BE RETURNED TO ALLISON AND THERE MAY BE A PARTIAL CREDIT ISSUED WHICH WOULD THEN BE CREDITED TO CUSTOMER.

PLEASE NOTE THIS IS ESTIMATE ONLY AND IF AFTER OPENING JOB UP THERE ARE ADDITIONAL ITEMS FOUND ADDITIONAL COST CAN BE INCURRED.

IF APPROVED PLEASE SIGN AND RETURN A COPY WITH PURCHASE ORDER # IF NEEDED.

APPROVED BY _____ DATED _____

When you need the power and versatility of a compact tractor, but want the maneuverability and visibility of a zero turn mower, the Ventrac 3400 will give you the best of both worlds and more. Engineered with an innovative articulating frame, the 3400 tractor is the industry's best combination of visibility, maneuverability, power and versatility. Find out how this ideal combination can turn the work you have to do, into the work you love to do.

Over 15 Ventrac Mount Attachments

Choose from over 15 professional grade Ventrac Mount attachments to transform your Ventrac into a productivity powerhouse.

Standard on the 3400 is Ventrac's patented S.D.L.A. Control, which allows for easy control of Speed, Direction, Lift and Auxiliary function all with one hand.

Combine these features with a tight 28 inch (71cm) turning radius and you will find the 3400 can tackle jobs reserved for much larger, less maneuverable machines.

LB540 Broom

TRACTOR COMPATIBILITY KEY:

3B

The LB540 Power Broom is designed for the sweeping and removal of snow, leaves, dirt, light gravel, and other materials from parking lots, sidewalks, and other surfaces. Heavy duty nylon bristles make short work of any clean up job without damaging the surface below.

A hydraulic cylinder angles the broom left or right from the operator's seat. Adjustable gauge wheels set the height of work for precise adjustment. Optional outrigger wheels allow for controlled adjustment when dethatching turf. An optional front debris curtain is available for less over throw of material.

STANDARD FEATURES

- Nylon Bristle Rotor
- Adjustable Gauge Wheels
- Hydraulic Power Angle Cylinder
- Ventrac Mount System

Optional Accessories

- Adjustable outrigger gauge wheels for dethatching
- Front Belting Curtain

SPECIFICATIONS

LX423 Snow Blower

TRACTOR COMPATIBILITY KEY:

The 42 Inch wide LX423 Snow Blower for the Ventrac 3000 series is built for commercial snow clearing operations of sidewalks, driveways, and other areas. A two stage snow blower, the LX423 features a 16 inch diameter solid auger for best snow transfer, a large 20 inch diameter fan, and the ability to move 2500 pounds of snow per minute at distances up to 40 feet. Standard features include adjustable cast iron skid shoe discs at the rear, high carbon hardened steel shoes at the side, and a reversible high carbon hardened steel cutting edge.

The hydraulically activated discharge chute can rotate 180 degrees, all from the convenience of Ventrac's exclusive S.D.L.A. Control System. Chute deflection is manually adjustable. An electric chute deflection controller is optional.

Double spiral serrated auger

Adjustable cast iron skid shoe discs

SnoStik™ for dislodging clogged snow

STANDARD FEATURES

- 2-Stage System
- Double spiral serrated auger
- Hinged chute deflector with optional electric actuator
- Standard hydraulic controlled
- 180 degree rotation discharge chute
- Extra heavy-duty shaft and bearings
- Chute guard quick release rubber latches
- Chute liner to reduce snow leakage
- Front crossbar protection bumper
- Cleanup stick for dislodging clogged snow
- Ventrac Mount System

SPECIFICATIONS

Stock Code	39.35427
Auger	Double spiral serrated
Auger Diameter	16 inches (40.6 cm)
Snow Capacity	2500 lbs/min
Two Stage	Standard
Paddles	4
Chute Rotation	180 degrees
Throwing Range ¹	Approx 35 – 40 feet (10.6-12.2 meters)

Optional Accessories

12 Volt Actuator	70.8025
12 Volt Switch and Plug** (required for actuator)	70.3016
Rear Weight Bracket	70.3043
Suitcase Weights (Individual Weight)	47.0115

Dimensions

Length	44 inches (112 cm)
Width	42 inches (107 cm)
Height	54 inches (137 cm)
Weight	405 lbs (184 kg)

¹ Dependent on wind and snow conditions

** Based on engine speed of 3,200 RPM

KV552 V-Blade

TRACTOR COMPATIBILITY KEY:

3B

The 55 inch side Ventrac KV552 V-Blade maximizes efficiency with the ability to quickly change from V plow to Scoop to straight blade, all from the convenience of Ventrac's exclusive S.D.L.A. Control System. With a 48" V width, the KV552 is ideal for walks and areas that larger blades are unable to plow.

Standard features include hydraulically activated wing cylinders, mechanical trip, adjustable cast iron skid shoe discs, reversible high carbon hardened steel cutting edges, and a center shoe for gliding over rough terrain. Pivot points are fully greasable to ensure proper operation, even in the worst environments.

The KV552 V-Blade fits Ventrac 3000 and 4000 series tractors, and requires the 12V switch and plug kit.

HYDRAULICALLY ANGLE EITHER WING

STANDARD FEATURES

- Hydraulically angle either wing (Requires 12 Volt Switch Plug Kit)
- Adjustable cast iron skid shoe discs
- Adjustable Spring controlled trip mechanism
- Trip Lockout Pin for Digging in material
- Reversible, Changeable Cutting Edge
- Center mounted skid shoe
- Ventrac Mount System

SPECIFICATIONS

Stock Code	39.55271
Required 12 Volt Switch/Plug Kit for 4500 Tractor	70.4104
Required 12 volt Switch/Plug Kit for 3400 Tractor	70.3036
Hydraulic Power Angle	Independent cylinders
Blade Wing Selection	Electric Solenoid
Spring Trip	Mechanical On/Off
Max Wing Angle (Left/Right)	30 Degrees
Adjustable Skid Shoes	Standard

Optional Accessories

- Top Deflection Flap
- 6 and 12 inch Flare Extension kits
- Polyurethane Cutting Edge

Optional Accessories

Top Deflection Flap	70.8044
Flare Kit, 12/6 inch extension (31/15 cm)	70.8046

SA250 Drop Spreader

TRACTOR COMPATIBILITY KEY:

The Ventrac Sidewalk Drop Spreader is the ultimate tool for spreading an array of deicing materials with precision flow control. Designed with a narrow frame and a 40" drop pattern, this spreader is ideal for spreading material on sidewalks and other narrow walkways.

Material is evenly distributed using a unique compression roller system. An easy gate adjustment allows for fine tuning flow rates based on the type of material being spread and the desired quantity being applied. The wireless remote control regulates five motor speeds for quick flow adjustments from the operator seat.

The stainless steel hopper prevents premature failure due to rust and corrosion. The innovative agitation system prevents material bridging and eliminates the need for a traditional, noisy vibration motor.

NOTE:

- Universal mounting options are available for a 2" receiver hitch or a category one three-point hitch.
- The hopper extension kit is **NOT** compatible with the 3400 tractor.

SPECIFICATIONS

Stock Code	70.2013
Material Bin Construction	Stainless Steel
Motor	12V LEESON®
Material Capacity	2.5 ft ³ /200lbs
Material Spread	Coarse & Free-flowing deicers
Controller	Wireless Hand-held 5 speed with burst

Mounting Options

All 4000 Series Ventrac Tractors	70.8140
Ventrac 3400 Tractor	70.8141

Village of Tarrytown Water Demand Management Plan

Plan Review Meeting

Bill Richardson, Erin Morey, Gina Behnke, DEP
Peter Mayer, WaterDM

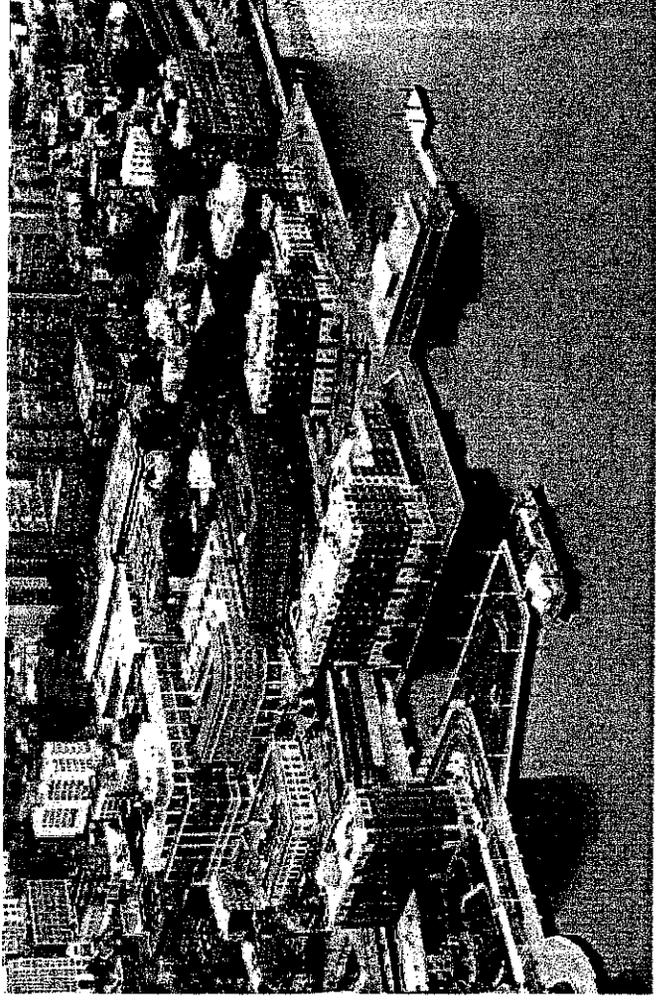

October 17, 2017

14

5

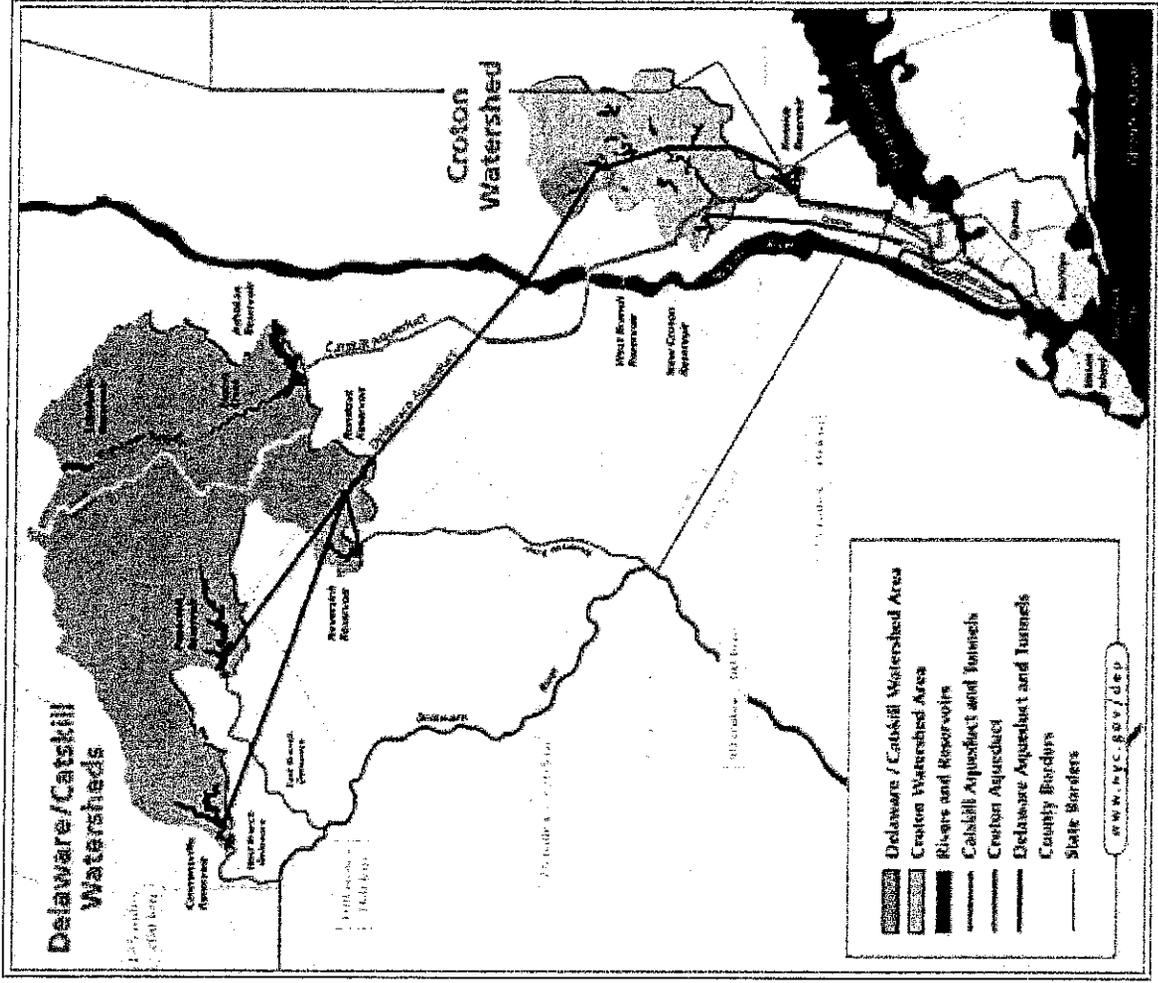

Agenda

- Introductions
- DEP's Water Demand Management Program
- Tarrytown's Water Demand Management Plan
- Tarrytown Water Demand Management Options
- Discussion of measures
- Next Steps

New York City's Water Supply System

- 2,000 square mile watershed
- Serves over 9 million people (50% of State)
- 580 billion gallon capacity
- ~ 1.1 billion gallons/day system demand

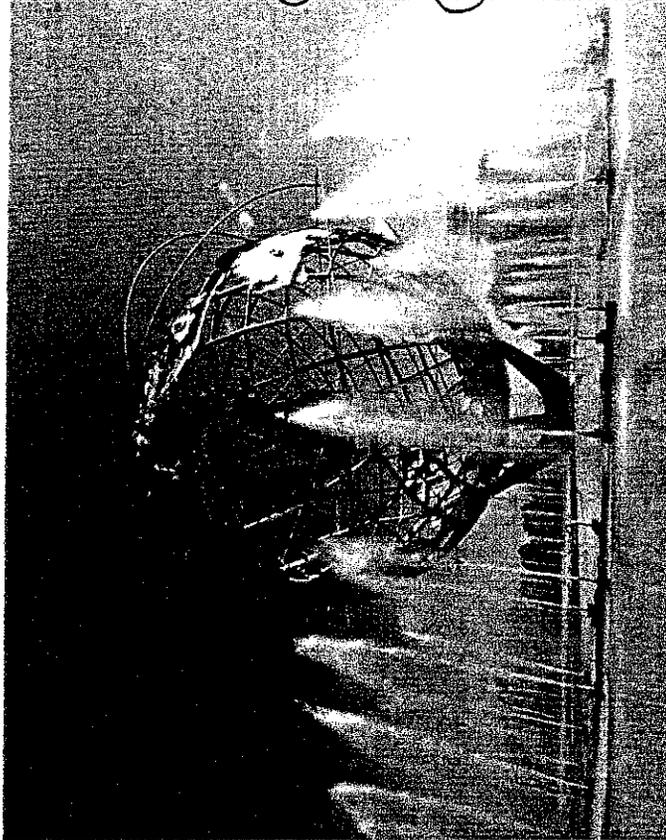

3

DEP's Water Demand Management Program

- Working towards a 5% goal for reductions in current demand

WATER DEMAND MANAGEMENT PLAN

Michael R. Bloomberg
Mayor
John S. Stockton, Jr.
Commissioner

1

Retrofit and replace water fixtures at Schools, Parks, WWTPs, NYCHA, FDNY and Colleges

2

Replace inefficient fixtures in residential buildings

3

Create voluntary conservation programs in non-residential sectors and provide cost sharing

4

Continue leak detection, pressure management, and metering

5

Adopt Water Shortage Rules, and emergency rates

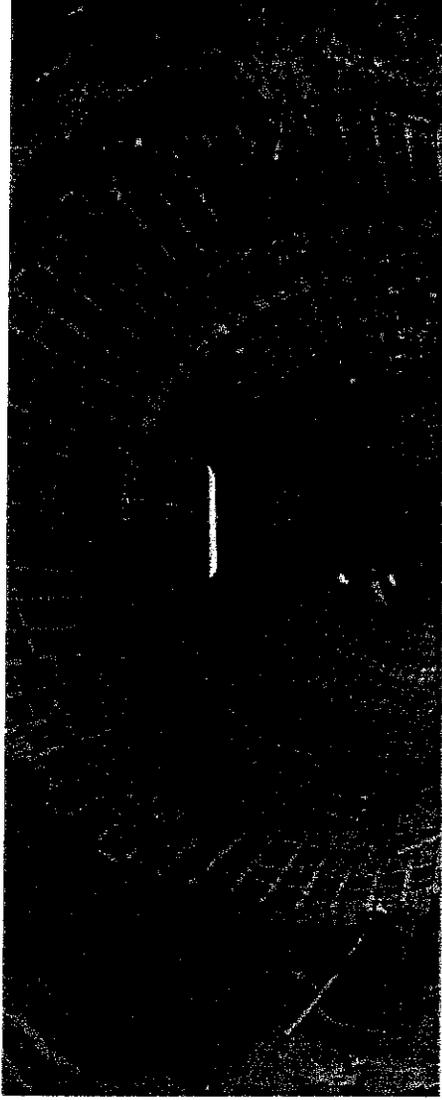

6

Develop demand management plans for 11 upstate wholesale customers

Wholesale Customer Program Participants

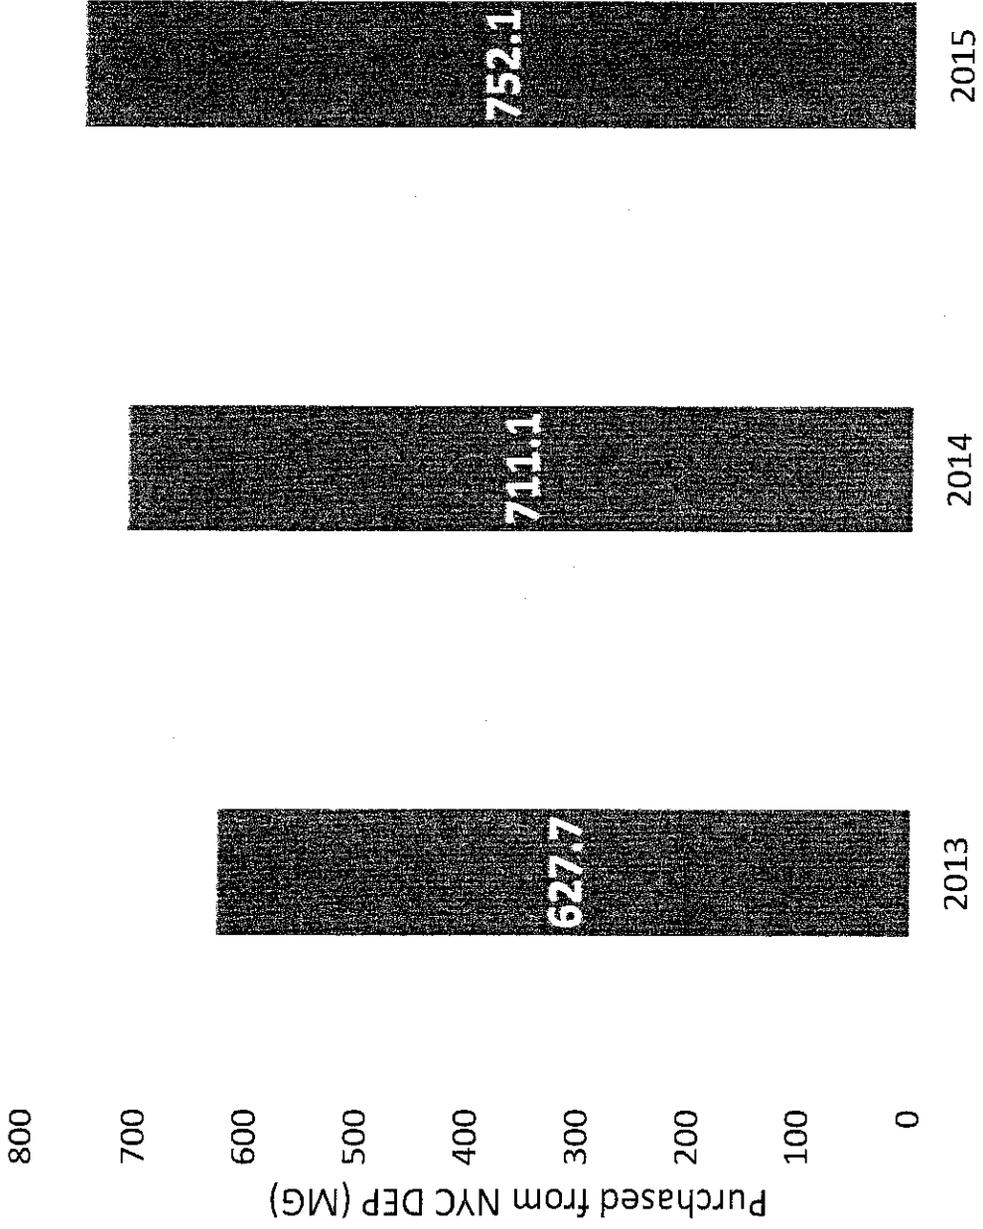

1. Town of New Windsor
2. Westchester Joint Water Works
3. City of Mount Vernon
4. Village of Scarsdale
5. Town of Greenburgh
6. SUEZ Westchester
7. Village of Ossining
8. Village of Tarrytown
9. City of Yonkers
10. Town of Newburgh
11. Westchester County/White Plains

2014 & 2015 AWWA Water Loss Audit

- Non-revenue water 271 & 258 MG per year
- Apparent Losses: 16 & 18 MG
- Real Losses (>5MG~~X~~): 255 & 240 MG
- Annual cost of Real Losses (valued at the variable production cost of \$3,372.91 per MG): \$859,455 (2014) and \$808,640 (2015)
- Daily Real Losses: 278.6 gal (2014) and 262.1 gal (2015) per service connection

Demand Reduction Goal and Measures Considered

	2013 (MGD)	2013 (MG)
Tarrytown Supply: Water Purchased from NYC	1.72	628
5% Savings Goal	0.09	31.4

1. Water loss control, including additional leak detection and line repair.
2. Transition to monthly billing for all customers. →
3. Indoor upgrade voucher program for residential retrofits, including: toilet, shower, and faucet replacement.
4. Commercial and institutional customer audits and upgrades.
5. Advanced metering infrastructure (AMI) leak detection, night polling, and customer leak alerts.

Available Funding for Implementation

DEP has \$311,000 in funding available to Tarrytown for implementation of conservation measures to achieve a 5% reduction

- 4 year contract
- 2022 goal achievement

Implementation funding will require a scope of work and schedule of milestones as part of Intergovernmental Agreement (IGA)

Preliminary Cost and Savings Analysis

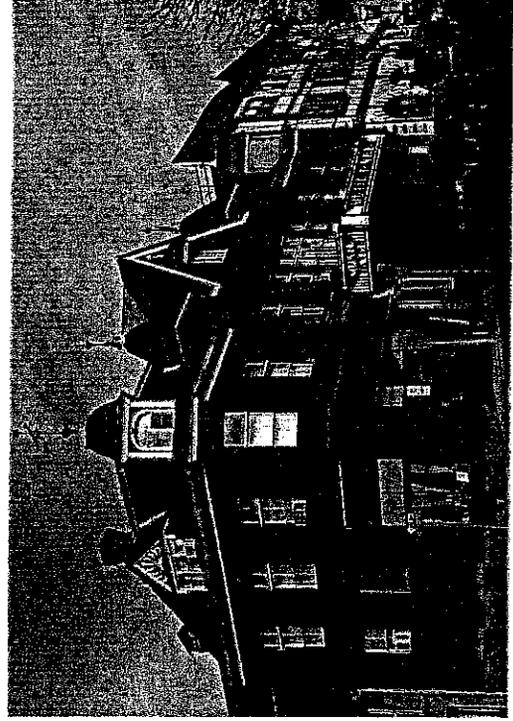

Description	Basis for Savings Estimate	Units/ Customers	Expected Savings (GPD)	% of 0.09 MGD Savings Goal	Expected Cost (\$)	1 Year Cost per GPD Saved (\$)	Net Annual Revenue Loss/Gain
1. Water Loss Control							
Line Listening	Entire system, 50 miles, \$300/mile, every year	50			\$15,000		
Line Repair	8% - 12% of annual water loss		70,411	81.9%	TBD	TBD	\$86,684
Pressure Management	7% - 10% of annual water loss		35,205	40.9%	TBD	TBD	\$43,342
2. Transition to monthly billing and tiered rates for all customers							
	6% reduction in residential demand	2,000	42,738	49.7%	\$40,000	\$ 0.94	\$173,513
3. Indoor upgrade voucher program							
	10,000 gal. savings/intervention	500	10,959	12.74%	\$ 100,000	\$ 9.13	\$ 44,492
4. Commercial and institutional customer audits and upgrades							
	75,000 gal./participant	50	10,274	11.95%	\$ 150,000	\$14.60	\$12,648
5. AMI leak detection, night polling, and customer leak alerts							
	5% reduction in residential demand	2,600	49,861	58.0%	\$1,040,000	\$ 20.86	\$ 202,432

5

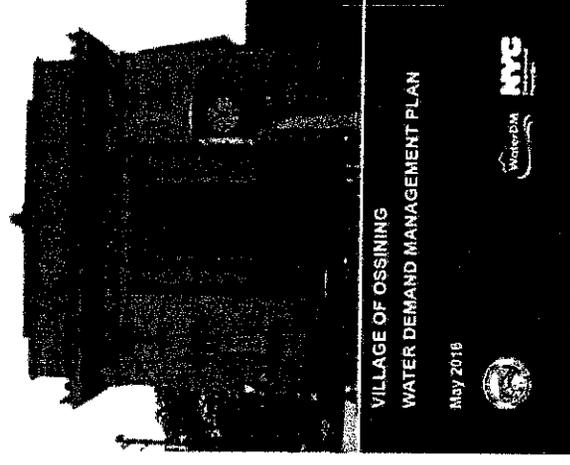

Which Demand Management Options?

- Water loss control, including additional leak detection, line repair, and pressure management
- Transition to monthly billing for all customers
- Expanded leak alerts
- Fixture replacement voucher program

Next Steps

- Tarrytown selects demand management/measures for funding
- Prepare more detailed implementation chapter and complete Water Demand Management Plan
- Dedication Letter, Joint Press Release
- Execute implementation agreement (IGA) between DEP and Tarrytown
- Procurement Process within DEP
- NYC Comptroller Registration
- Implement water demand management program

Subject: Re: McKeel Ave. and So Broadway Municipal gardens

Hi Mary,

I actually didn't know that the Foundation had disbanded (though now that I think about it, I hadn't heard from it in some time). I'll ask Rich bring this to the Board for consideration.

Thanks,

Drew

Hello Drew,

You may or may not know that I am responsible for the autumnal display at the McKeel Garden and the Municipal lot on So Broadway for the autumn season. These gardens were planted by the Beautification Foundation, which has been disbanded for several years now. It's really only myself and Susan Sincero, who are left.

Susan continues to take care of the Neperan park garden roses and the gardens in from of it and I tend the Municipal lot all year round and when I can , do some weeding at McKeel! We also have JS Cutting Edge help us with the upkeep of McKeel because it is too much for Susan and I to keep up with now.

Since the Foundation is disbanded we haven't received donations for quite some time now and we have very little money left , which is the reason I am writing you.

6

I have been creating the autumnal display at McKeel for about six years now. People love it, which you can clearly see if you take a look at a recent post on FB 10591, Group where my daughter posted a picture of my display. The response was heartwarming and amazing. It had 490 likes and 50 lovely comments.

I would like to keep doing these gardens each year but the Foundation can no longer fund me. Going forward I would like to ask the Village to reimburse me for my costs for what I do each October. I would give you my receipts from all that I spend and wouldn't charge for my time. The cost is about \$350.00. I go and purchase everything that I need and then I do what I do. This year I spent about 3 hours getting what I needed and then the next day I spent about 4 hours on both gardens. Of course, the McKeel Garden takes longer. This year I trimmed and cleaned up the Municipal lot and planted mums with some little scarecrow figures in each mum.

I'm attaching some pictures so you can see what I do. I would also like to suggest that you walk by the gardens.

Please let me know if you approve my request for backing so I can keep doing this next year and the years to come as long as I'm able.

Thanks for your consideration!

Mary Westerfield
